## Why Us?

A **specialist cyber security consultancy** comprising leading practitioners with deep cyber security and risk expertise.

We provide **innovative and cost effective outcomes** that allow our clients to better manage their cyber risk.

We have worked with **prominent Australian businesses** on a variety of engagements at a highly competitive pricing.

We augment our commercial offerings with **pro bono** services for the community.

## Our Solutions

### Meerkat

Meerkat is backed by our SIEM managed engineering capability as well as our purpose built and subscription-based attack surface management and threat intel platform.

### Ransom Where?

We assist clients with ransomware preparedness assessments, developing incident response plans and performing operational and board tabletops.

### Board in a Box

Our solution targeting directors and the board includes comprehensive cyber training, cyber risk appetite statement prep, board cyber health checks and developing board cyber reporting framework.
